EQT Reports Third Quarter 2026 Results

CANONSBURG, October 27, 2026 -- EQT Corporation (NYSE: EQT) today announced financial and operational results for the third quarter of 2026.

Third Quarter 2026 Results:

- Production: Sales volume of 583 Bcfe, inclusive of 21 Bcfe of strategic curtailments
- Capital Expenditures: $638 million, 10% below the low-end of guidance, driven by lower-than-expected upstream and midstream spending and continued benefit from operational efficiency gains
- Realized Pricing: Differential of $(0.64) favorable to guidance despite widening basis during the quarter due to benefits from marketing optimization and curtailment strategy
- Operating Costs: Total per unit operating costs of $1.09 per Mcfe, at the low end of guidance driven by lower-than-expected LOE and production tax
- Cash Flow: Net cash provided by operating activities of $1,083 million; generated free cash flow attributable to EQT[(1)] of $283 million
- Balance Sheet: Exited the quarter with $5.6 billion total debt and just under $5.5 billion net debt[(1)]

Third Quarter 2026 and Recent Highlights:

- Range Acquisition: Announced strategic acquisition of Range Resources Corporation, which will create America's largest and only vertically integrated natural gas producer with leading inventory depth, lowest cost structure, a fortress balance sheet and the largest natural gas marketing platform in the country
- POWER Pipeline: Launched open season for new 42-inch POWER Pipeline project connecting EQT's core Marcellus assets in Pennsylvania to growing demand at the Clarington hub in Ohio
- LNG Sales Contract: Signed 10-year LNG sales agreement with Ignitis Group, the largest supplier of electricity and natural gas in Lithuania
- Gulf Coast Storage: Contracted for 7 Bcf of storage capacity at Leaf River Energy Center's salt dome expansion project along the Gulf Coast; increases EQT's Gulf Coast storage capacity up to 11 Bcf and provides optimization flexibility to support the LNG business
- Dividend Increase: Increased dividend by 3% to $0.68 per share annualized; compounded annual dividend growth rate of ~7% since 2022 with durability underpinned by material cost structure improvements and synergy capture over this period

President and CEO Toby Z. Rice stated, "Third quarter results built on what has been an exceptional year of execution at EQT. Despite downward pressure on natural gas prices during the quarter, our marketing efforts drove stronger realized pricing, operating expenses came in at the low end of guidance and capital spending was well below expectations as efficiencies continue to accrue. This resulted in yet another quarter of greater-than-expected free cash flow generation."

Rice added, "We also announced our strategic combination with Range Resources, pairing two of the highest-quality, longest-duration asset bases in North America and creating a company uniquely positioned for the next era of natural gas. Our expanded resource base solidifies EQT as the operator of choice for premium, long-term supply arrangements and provides unique growth optionality underpinned by contractual demand. We believe this combination creates a must-own energy company capable of generating durable, through-cycle free cash flow while compounding value for shareholders for decades to come."

(a) References in this news release to the "Company" refer to EQT Corporation together with its consolidated subsidiaries. As used throughout this news release, per unit operating costs reflect, for each period presented, the consolidated amount of such operating cost for the Company (aggregated irrespective of business segment) divided by total sales volume (Mcfe).

Gathering expense per Mcfe increased for the three months ended September 30, 2026 compared to the same period in 2025 due primarily to higher volumes gathered by third parties from wells turned-in-line in the first quarter of 2026.

Transmission expense per Mcfe increased for the three months ended September 30, 2026 compared to the same period in 2025 due primarily to lower sales volume.

Selling, general and administrative expense increased for the three months ended September 30, 2026 compared to the same period in 2025 due primarily to higher long-term incentive compensation costs and higher professional service costs.

Liquidity

As of September 30, 2026, the Company had $63 million of borrowings outstanding under EQT Corporation's $3.5 billion revolving credit facility. Total liquidity, excluding available capacity under Eureka Midstream, LLC's (Eureka) revolving credit facility, as of September 30, 2026 was approximately $3.5 billion.

As of September 30, 2026, total debt and net debt[(1)] were $5.6 billion and $5.5 billion, respectively, compared to $7.8 billion and $7.7 billion, respectively, as of December 31, 2025.

(1) A non-GAAP financial measure. See the Non-GAAP Disclosures section of this news release for the definition of, and other important information regarding, this non-GAAP financial measure.

Fourth Quarter 2026 Outlook

The Company expects total sales volume of 550 – 600 Bcfe in the fourth quarter of 2026, which includes the impact of 10 – 20 Bcfe of strategic curtailments. The Company expects $540 – $610 million of maintenance capital expenditures in the fourth quarter of 2026. Strategic growth capital expenditures in the fourth quarter of 2026 are expected to total $185 – $225 million. The Company plans to turn-in-line (TIL) 16 – 26 net wells in the fourth quarter of 2026.

Non-GAAP Disclosures

This news release includes the non-GAAP financial measures described below. These non-GAAP measures are defined and reconciled to the most directly comparable GAAP measure. These non-GAAP measures are intended to provide additional information only and should not be considered as alternatives to, or more meaningful than, net income attributable to EQT Corporation, diluted EPS, net income, net cash provided by operating activities, total Upstream operating revenues, total debt or any other measure calculated in accordance with GAAP. Certain items excluded from these non-GAAP measures are significant components in understanding and assessing a company’s financial performance, such as a company’s cost of capital, tax structure and historic costs of depreciable assets.

Adjusted Net Income Attributable to EQT and Adjusted EPS

Adjusted net income attributable to EQT is defined as net income attributable to EQT Corporation, excluding (gain) loss on sale/exchange of long-lived assets, impairments, the revenue impact of changes in the fair value of derivative instruments prior to settlement and certain other items that the Company's management believes do not reflect the Company's core operating performance. Adjusted EPS is defined as adjusted net income attributable to EQT divided by diluted weighted average common shares outstanding.

The Company's management believes that adjusted net income attributable to EQT and adjusted EPS provide useful information to investors regarding the Company's financial condition and results of operations because it helps facilitate comparisons of operating performance and earnings trends across periods by excluding the impact of items that, in their opinion, do not reflect the Company's core operating performance. For example, adjusted net income attributable to EQT and adjusted EPS reflect only the impact of settled derivative contracts; thus, the measures exclude the often-volatile revenue impact of changes in the fair value of derivative instruments prior to settlement.

The table below reconciles adjusted net income attributable to EQT and adjusted EPS with net income attributable to EQT Corporation and diluted EPS, respectively, the most comparable financial measures calculated in accordance with GAAP, each as derived from the Statements of Condensed Consolidated Operations to be included in EQT Corporation's Quarterly Report on Form 10-Q for the quarter ended September 30, 2026.

	Three Months Ended September 30,		Nine Months Ended September 30,

Adjusted net income attributable to EQT	$ 261,416	$ 328,580	$ 1,969,760	$ 1,314,863
Diluted weighted average common shares outstanding	629,172	628,324	628,992	611,427
Diluted EPS	$ 0.44	$ 0.53	$ 3.14	$ 2.23
Adjusted EPS	$ 0.42	$ 0.52	$ 3.13	$ 2.15

(a) Consists primarily of transaction costs associated with acquisitions and other strategic transactions as well as costs related to exploring new venture opportunities. Other expenses for the three and nine months ended September 30, 2025 included the impact of $21.0 million and $24.5 million, respectively, of cash transaction costs related to the Company's acquisition of Olympus Energy (the Olympus Energy Acquisition), and, for the nine months ended September 30, 2025 included the impact of $133.7 million of net expense related to a securities class action settlement.

(b) The tax impact of non-GAAP items represents the incremental tax expense/benefit that would have been incurred by the Company had these items been excluded from net income attributable to EQT Corporation. This approach resulted in a blended tax rate of 24.3% and 24.7% for the three months ended September 30, 2026 and 2025, respectively, and 25.3% and 25.1% for the nine months ended September 30, 2026 and 2025, respectively. The blended tax rates differ from the Company's statutory tax rate due primarily to state taxes, including valuation allowances limiting certain state tax benefits.

Adjusted EBITDA, Adjusted EBITDA Attributable to Noncontrolling Interests and Adjusted EBITDA Attributable to EQT

Adjusted EBITDA is defined as net income excluding net interest expense, income tax expense, depreciation, depletion and amortization, (gain) loss on sale/exchange of long-lived assets, impairments, the revenue impact of changes in the fair value of derivative instruments prior to settlement and certain other items that the Company's management believes do not reflect the Company's core operating performance. Adjusted EBITDA attributable to EQT is defined as adjusted EBITDA less adjusted EBITDA attributable to noncontrolling interests. Adjusted EBITDA attributable to noncontrolling interests is defined as the proportionate share of adjusted EBITDA attributable to the third-party ownership interests in the Non-Wholly Owned Consolidated Subsidiaries (defined below).

The Company's management believes that these measures provide useful information to investors regarding the Company's financial condition and results of operations because they help facilitate comparisons of operating performance and earnings trends across periods by excluding the impact of items that, in their opinion, do not reflect the Company's core operating performance. For example, adjusted EBITDA reflects only the impact of settled derivative instruments and excludes the often-volatile revenue impact of changes in the fair value of derivative instruments prior to settlement. In addition, adjusted EBITDA includes the impact of distributions received from equity method investments, which excludes the impact of depreciation included within equity earnings from equity method investments and helps facilitate comparisons of the core operating performance of the Company's equity method investments.

The table below reconciles adjusted EBITDA and adjusted EBITDA attributable to EQT with net income, the most comparable financial measure as calculated in accordance with GAAP, as reported in the Statements of Condensed Consolidated Operations to be included in EQT Corporation's Quarterly Report on Form 10-Q for the quarter ended September 30, 2026.

(a) Consists primarily of transaction costs associated with acquisitions and other strategic transactions as well as costs related to exploring new venture opportunities. Other expenses for the three and nine months ended September 30, 2025 included the impact of $21.0 million and $24.5 million, respectively, of cash transaction costs related to the Olympus Energy Acquisition, and, for the nine months ended September 30, 2025 included the impact of $133.7 million of net expense related to a securities class action settlement.

(b) A non-GAAP financial measure. See below for a reconciliation of this non-GAAP financial measure to the most comparable financial measure as calculated in accordance with GAAP.

The Company consolidates its controlling equity interests in the Midstream JV and Eureka Midstream Holdings, LLC (Eureka Holdings and, together with the Midstream JV, the Non-Wholly Owned Consolidated Subsidiaries). The table below reconciles adjusted EBITDA of the Non-Wholly Owned Consolidated Subsidiaries and adjusted EBITDA attributable to noncontrolling interests with net income of the Non-Wholly Owned Consolidated Subsidiaries, the most comparable financial measure as calculated in accordance with GAAP. The Company's management believes that adjusted EBITDA attributable to noncontrolling interests provides useful information to investors regarding the impact of the third-party ownership interest in the Non-Wholly Owned Consolidated Subsidiaries on the Company's financial condition and results of operations.

Adjusted EBITDA attributable to noncontrolling interests	$ 121,851	$ 128,230	$ 389,892	$ 390,194

(a) Adjusted EBITDA of the Non-Wholly Owned Consolidated Subsidiaries attributable to EQT is calculated based on EQT Corporation's current 40% Class A Unitholder share of available cash flow distributions from the Midstream JV and 60% ownership interest in Eureka Holdings. The Company believes that using its distribution share from the Midstream JV in the calculation of adjusted EBITDA of the Non-Wholly Owned Consolidated Subsidiaries attributable to EQT best reflects the economic impact of the Company's investment in the Midstream JV on adjusted EBITDA and earnings trends.

Adjusted Operating Cash Flow, Adjusted Operating Cash Flow Attributable to EQT, Free Cash Flow and Free Cash Flow Attributable to EQT

Adjusted operating cash flow is defined as net cash provided by operating activities less changes in other assets and liabilities. Adjusted operating cash flow attributable to EQT is defined as adjusted operating cash flow less adjusted EBITDA attributable to noncontrolling interests excluding net interest expense attributable to noncontrolling interests. Free cash flow is defined as adjusted operating cash flow less accrual-based capital expenditures and capital contributions to equity method investments. Free cash flow attributable to EQT is defined as adjusted operating cash flow attributable to EQT less accrual-based capital expenditures and capital contributions to equity method investments excluding the proportionate share of accrual-based capital expenditures and capital contributions to equity method investments attributable to the third-party ownership interests in the Non-Wholly Owned Consolidated Subsidiaries.

The Company's management believes that these measures provide useful information to investors regarding the Company's liquidity, including the Company's ability to generate cash flow in excess of its capital requirements and return cash to shareholders.

The tables below reconcile adjusted operating cash flow, adjusted operating cash flow attributable to EQT, free cash flow and free cash flow attributable to EQT with net cash provided by operating activities, the most comparable financial measure calculated in accordance with GAAP, as derived from the Statements of Condensed Consolidated Cash Flows to be included in EQT Corporation's Quarterly Report on Form 10-Q for the quarter ended September 30, 2026.

(a) Adjusted operating cash flow, adjusted operating cash flow attributable to EQT and free cash flow attributable to EQT for the three and nine months ended September 30, 2025 included the impact of $21.0 million and $24.5 million, respectively, of cash transaction costs related to the Olympus Energy Acquisition, and, for the nine months ended September 30, 2025 included the impact of $133.7 million of net expense related to a securities class action settlement.

(b) A non-GAAP financial measure. See above for a reconciliation of this non-GAAP financial measure to the most comparable financial measure as calculated in accordance with GAAP.
(c) Adjusted operating cash flow attributable to EQT and free cash flow attributable to EQT are calculated based on EQT Corporation's current 40% Class A Unitholder share of available cash flow distributions from the Midstream JV and 60% ownership interest in Eureka Holdings. The Company believes that using its distribution share from the Midstream JV in the calculation of these measures best reflects the economic impact of the Company's investment in the Midstream JV on adjusted operating cash flow, free cash flow and earnings trends.

Upstream Adjusted Operating Revenues

Upstream adjusted operating revenues (also referred to as total natural gas and liquids sales, including cash settled derivatives and previously referred to as Production adjusted operating revenues) is defined as total Upstream operating revenues, less the revenue impact of changes in the fair value of Upstream derivative instruments prior to settlement and Upstream other revenues. The Company's management believes that this measure provides useful information to investors regarding the Company's financial condition and results of operations because it helps facilitate comparisons of operating performance and earnings trends across periods. Upstream adjusted operating revenues reflects only the impact of settled Upstream derivative contracts; thus, the measure excludes the often-volatile revenue impact of changes in the fair value of derivative instruments prior to settlement. The measure also excludes Upstream other revenues because it is unrelated to the revenue from the Company's natural gas and liquids production.

The table below reconciles Upstream adjusted operating revenues with total Upstream operating revenues, the most comparable financial measure calculated in accordance with GAAP, as reported in the Statements of Condensed Consolidated Operations to be included in EQT Corporation's Quarterly Report on Form 10-Q for the quarter ended September 30, 2026.

Net Debt

Net debt is defined as total debt less cash and cash equivalents. Total debt includes the Company's current portion of debt, revolving credit facility borrowings and senior notes. The Company's management believes that net debt provides useful information to investors regarding the Company's financial condition and assists them in evaluating the Company's leverage since the Company could choose to use its cash and cash equivalents to retire debt.

The table below reconciles net debt with total debt, the most comparable financial measure calculated in accordance with GAAP, as derived from the Condensed Consolidated Balance Sheets to be included in EQT Corporation's Quarterly Report on Form 10-Q for the quarter ended September 30, 2026.

About EQT Corporation

EQT Corporation is a premier, vertically integrated American natural gas company with upstream and midstream operations focused in the Appalachian Basin. We are dedicated to responsibly developing our world-class asset base and being the operator of choice for our stakeholders. By leveraging a culture that prioritizes operational efficiency, technology and sustainability, we seek to continuously improve the way we produce environmentally responsible, reliable and low-cost energy. We have a longstanding commitment to the safety of our employees, contractors, and communities, and to the reduction of our overall environmental footprint. Our values are evident in the way we operate and in how we interact each day – trust, teamwork, heart, and evolution are at the center of all we do.

EQT management speaks to investors from time to time and the analyst presentation for these discussions, which is updated periodically, is available via EQT's investor relations website at ir.eqt.com.

Cautionary Statements Regarding Forward-Looking Statements

This news release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Statements that do not relate strictly to historical or current facts are forward-looking. Without limiting the generality of the foregoing, forward-looking statements contained in this news release or made during the above referenced conference call specifically include the expectations of plans, strategies, objectives and growth and anticipated financial and operational performance of EQT Corporation (EQT) and its consolidated subsidiaries (collectively, the Company), including guidance regarding the Company's strategy to develop its reserves; drilling plans and programs (including the number and type of drilling rigs and the number of frac crews to be utilized by the Company, the projected amount of wells to be turned-in-line and the timing thereof); projected natural gas prices, basis and average differential; the impact of commodity prices on the Company's business; total resource potential; projected production and sales volumes, including projected strategic curtailments and the timing, duration and volume thereof; projected capital expenditures and per unit operating costs; the amount and timing of distributions to and from the Company's joint venture arrangements; the Company's ability to successfully implement and execute its operational and organizational initiatives, the timing thereof and the Company's ability to achieve the anticipated results of such initiatives; the Company's plans, objectives, expectations, goals and projections relating to the Company's LNG offtake and tolling agreements and growth projects, including statements relating to the anticipated in-service dates, volume, duration, cost, anticipated impacts to free cash flow and investment returns thereof; the Company's ability to achieve the intended operational, financial and strategic benefits from any proposed and recently completed strategic transactions, including the proposed transaction (the proposed transaction) between EQT and Range Resources Corporation (Range), and the timing thereof; other statements regarding the proposed transaction, including the expected closing and the timing thereof, and the pro forma combined company and its operations, strategies and plans, integration, debt levels and leverage ratio, capital expenditures, enterprise value, cash flows and anticipated uses thereof, synergies, opportunities and anticipated future performance, expected accretion to earnings and free cash flow and anticipated dividends; the amount and timing of any redemptions, repayments or repurchases of EQT's common stock, the Company's outstanding debt securities or other debt instruments; the Company's ability to reduce its debt and the timing of such reductions, if any; projected free cash flow; liquidity and financing requirements, including funding sources and availability; the Company's hedging strategy and projected margin posting obligations; the Company’s tax position and projected effective tax rate; and the expected impact of changes in laws.

The forward-looking statements included in this news release or made during the above referenced conference call involve risks and uncertainties that could cause actual results to differ materially from projected results. Accordingly, investors should not place undue reliance on forward-looking statements as a prediction of actual results. The Company has based these forward-looking statements on current expectations and assumptions about future events, taking into account all information currently known by the Company. While the Company considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks and uncertainties, many of which are difficult to predict and beyond the Company’s control. These risks and uncertainties include, but are not limited to, volatility of commodity prices; the costs and results of drilling and operations; uncertainties about estimates of reserves, identification of drilling locations and the ability to add proved reserves in the future; the assumptions underlying production forecasts; the quality of technical data; the Company's ability to appropriately allocate capital and other resources among its strategic opportunities; access to and cost of capital; the Company's hedging and other financial contracts; inherent hazards and risks normally incidental to drilling for, producing, transporting, storing and processing natural gas, natural gas liquids (NGLs) and oil; operational risks and hazards incidental to the gathering, transmission and storage of natural gas as well as unforeseen interruptions; cyber security risks and acts of sabotage; availability and cost of drilling rigs, completion services, equipment, supplies, personnel, oilfield services and pipe, sand and water required to execute the Company's exploration and development plans, including as a result of inflationary pressures or tariffs; risks associated with operating primarily in the Appalachian Basin; the ability to obtain environmental and other permits and the timing thereof; construction, business, economic, competitive, regulatory, judicial, environmental, political and legal uncertainties related to the development and construction by the Company or its joint ventures of pipeline and storage facilities and transmission assets and the optimization of such assets; the Company's ability to renew or replace expiring gathering, transmission or storage contracts at favorable rates, on a long-term basis or at all; risks relating to the Company's joint venture arrangements; government regulation or action, including regulations pertaining to methane and other greenhouse gas emissions; negative public perception of the fossil fuels industry; increased consumer demand for alternatives to natural gas; environmental and weather risks, including the possible impacts of climate change; and disruptions to the Company's business due to recently completed or pending divestitures, acquisitions and other significant strategic transactions, including the proposed transaction between EQT and Range; and other risks related to the proposed transaction between EQT and Range, including potential delays in consummation,

including as a result of regulatory proceedings, the risk that EQT's shareholders or Range's shareholders do not approve the transaction, the risk that regulatory approvals are not obtained or are obtained subject to conditions that are not anticipated, EQT's ability to integrate the acquired operations and assets in a successful manner and in the expected time period and the possibility that any of the anticipated benefits and projected synergies of such transaction will not be realized or will not be realized within the expected time period. These and other risks and uncertainties are described under the "Risk Factors" section and elsewhere in EQT's Annual Report on Form 10-K for the year ended December 31, 2025 and subsequent Quarterly Reports on Form 10-Q and other documents EQT subsequently files from time to time with the Securities and Exchange Commission. In addition, the Company may be subject to currently unforeseen risks that may have a materially adverse impact on it.

Any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by law, EQT does not intend to correct or update any forward-looking statement, whether as a result of new information, future events or otherwise.
